NAGORNO-KARABAKH CLASHES

ACTIVITIES IN CYBERSPACE DURING FOUR-DAY WAR (APRIL, 2016)

ISP

The hacker group "MMCA" targets the largest Azerbaijan ISPs by renaming 50 public routers' SSIDs to "Hacked by MMCA Armenian hacker".
Targets:
• Delta Telecom
• Baktelekom
• Aztelekom

Twitter

The hacker group "ACA" hacks the official Twitter account of the Embassy of Azerbaijan in Russia.

Media

The hacker group "MMCA" targets DoS/DDoS attacks on Azerbaijan media websites:
• VirtualKarabakh.az
• Live.az
Another hacker group "Tigran Mets Cyber Army" targets DoS/DDoS attack on Azerbaijan IT company website:
• Gts.az

Twitter

The hacker group "MMCA" hacks the official Twitter account of the Azerbaijan soccer team.

APRIL 2   **APRIL 3**   **APRIL 4**   **APRIL 5**

Government

The hacker group "MMCA" targets DoS/DDoS attacks on Azerbaijan government and media websites:
• Gov.az
• Aze.az
• Apa.az

Media

The hacker group "MMCA" targets DoS/DDoS attacks on Azerbaijan media websites:
• Irevanaz.com
• VirtualKarabakh.az
• Anarim.az

Military

The hacker group "MMCA" targets the Azerbaijan Military by leaking sensitive information of 25,000 Azerbaijani soldiers.
On the same day Armenian hacker group "MMCA" breaks into the official website of Azerbaijani customs, stealing highly confidential personal information of 5650 Azerbaijani citizens.

Citizens

An unknown hacker posts online the identity data of some 50 million Turks, including what they said were details about the president and prime minister, after what is believed to be the biggest data breach seen in the country.

NAGORNO-KARABAKH CLASHES

ACTIVITIES IN CYBERSPACE DURING FOUR-DAY WAR (APRIL, 2016)

Citizens

Unknown hackers create malicious Facebook app that adds an Armenian flag to your profile picture and silently uses your active session on Facebook to act behalf of you. Public awareness prevents any impacts.

APRIL 2

APRIL 3

Government
